---

### Summary

Dedicated and motivated Python developer with one year of hands-on experience, seeking opportunities to further enhance my skills and contribute to innovative software projects. A Computer Science graduate with a strong foundation in programming and a passion for continuous learning, I bring experience in Python development, web technologies, and IT support.

My professional background includes roles in data engineering, product research, and web design, using tools such as Google Cloud and Elasticsearch. I also have creative skills in video and photo editing. In addition to technical experience, I've volunteered at Voice of Islam Radio and IT Markaz, supporting backend operations and providing technical assistance. I currently hold a leadership role within the MKA organization, managing and mentoring a group of 30 men (ages 15–40) in my local community through youth development and spiritual guidance programs.
